PRANKLIN PIERCE. By the President : George W. Marktprenky,
Commissioner of Indian Affairs.
Note.—The above advertisement will be published in such papers only as are requested by note to insert

Postponement of the Sale of the Delaware Trust Lands in Kansas Terri-NOTICE is hereby given, that by direction of the President of the United States, the Sale of the Delaware Trust Lands in Kansas Territory, advertised to commence on the 20th of October next, at Fort Leavenworth is postponed until Monday the 17th day of November next, at which time and at the place aforesaid, the said sale will commence, and be conducted and continued in all respects as provided by the original proclamation on the 14th of August last.

By order of the President,

GEO. W. MANNYPENNY,

Commissioner of Indian Affairs DEPARTMENT INTERIOR, Office Indian Affairs. September 17, 1858. )

Something that Interests every Man West's Patent Galvanic Cement FO ROOFING ! THE subscribors are now prepared to cover roofs of buildings with a new and better article than ever The public are aware that our Government has had scientific men experimenting, and that it has been the study of Architects and Builders for years, to discover an article for roofing purposes that would stand the sud-den changes of the weather, and be impervious to fire

and water, and remain a permanent flature. As yet, nothing has been obtained without costing more than the people wish. The contraction, expansion and rusting of metal roofs, are so great in this changeable climate, that they become useless, unless being repaired at a great expense yearly. Shingles are not fire proof, and cannot be used on flat roofs,—and the various com positions and cements that have been brought into use for roofing, do not stand the action of the weather, but run when it is warm, and crack when it is (rosty; and after one or two years become crumbly and worthless Whereas, the Inventor of the Galvanic Cement has I bored 20 years to combine article to obviate those diffi bored 20 years to commune article to obvinte those diffi-culties, and can testify from his long experience and numerous testimonials from reliable persons who have had his combination applied to their buildings, that his Cement is the cheapest and best articles ever before known, and is also admirably adapted to Cars, Steam-boats, &c. The combination of this Cement is such, that is calculated for entire new roots, flat or steep, cov-No 442. 240 acres land 3 miles from Cloverdale.

Mr. S. C. Hill solicited the Job of covering with his Coment, a new brick building which I erected last season. Wishing to prove the article in every particular.

cult place where two roofs came together, upon which I expended several hundred dollars, I might give him the new building to cover. He done it to my entire satisfaction, and I can recommend his Cement as the cheapest and best covering now in use, to the public for all roofing purposes, and is a permanent fixture against fire and water.

Synacusz, N. Y. June 12, 1855.

Mg. S. C. Hill—Sir: The facts within my knowledge of the durability, &c., of West's Galvanic Coment, are these: Fourteen years ago last July, I had Mr. West to repair the roof of my brick house with his Galvanic Come at. I had for a long time been troubled with its leaking about the chimney and scuttle, and had tried various ways to remedy it, but without success. Mr. West applied his Cement and completely remedied the defects, so that it has never leaked since, and to all appearances, the work is as perfect to-day as the day is was put on. After Mr. West got through with the Job. there was a small quantity of the Cement left in a dish which I threw out on the water-stone which conveys

C. H. USENBENTZ. We concur with the above certificates, believing West's Galvanic Coment Roofing to be the most eco-BARNARD SLOCUM, E. B. WICKS, STEPHEN BASTABLE.
